Signature Room

Premier design and décor firm covering top-end residential, corporate and hospitality interiors

LINDIWE MABIZELA

OWNER AND HEAD DESIGNER

Headquartered in Witbank, Mpumalanga, Signature Room is committed to crafting turnkey bespoke and functional design solutions that embody sophistication and elegance and are tailored to enhance both private residences and commercial spaces. Signature Room's expertise ensures a seamless, refined experience for every project, providing peace of mind as it elevates investments to unparalleled standards of design excellence.

From where do you draw your inspiration? I draw inspiration from natural elements around a space that I need to design. It could be the geographical landscape, the layout, the surrounding scene or even a view.

What do you love most about your job? I love that I can create a concept first and then journey it right through to reality. The happiness on my clients' faces is priceless.

Who is the one creative person who inspires you and why? The one designer who inspires me is Sophie Paterson, her design style is timeless and luxurious. Her level of attention to detail and material selection is outstanding. I really love her work.

What current interior design trends are you looking forward to implementing this year? I have three trends that I love, they include cultural sensitivity and storytelling, biophilic design and soft-tech integration.

What is the best advice you have ever received? The best advice I have received so far is to know who you are in your industry and what sets you apart from everyone else and never to stop evolving in this ever-changing creative industry.

What is your favourite space in your home and why? I love my lounge area as it is an all-season space with lovely views of my garden and beautifully decorated Mediterranean-style outdoor space.
